

# Hydra-Enrich 20

## PREMIUM HUMIC ACID FOR ENHANCING NUTRIENT AVAILABILITY

**Hydra-Enrich 20** is a premium source of humic and fulvic acids derived from fresh water leonardite ore. **Hydra-Enrich 20** can enhance soil fertility by increasing nutrient availability and improving soil cation exchange. **Hydra-Enrich 20** is especially useful on sand-based soils, where humic acid has been demonstrated to have positive effects on nutrient uptake and plant growth.

### GUARANTEED ANALYSIS CONTAINS A NON-PLANT FOOD INGREDIENT

20.0%.....Humic Acid

Derived from: *Leonardite Ore.*

Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn / garden

### GENERAL RECOMMENDATIONS

**Hydra-Enrich20** may be applied foliarly or to the soil, mixed with fertilizers and injected through irrigation or sprayed as a band under the canopy. **Hydra-Enrich20** is a suspension and some settling may occur. Shake jug well prior to use. **Hydra-Enrich 20** may also require agitation when mixed with concentrated phosphate fertilizers.
