Hydra-Fuse 18-0-6

A core foliar fertilizer combined with a phosphite and proprietary biostimulants derived from desert plant extracts. **Hydra-Fuse** is designed to provide a consistent and lasting color response while enhancing stress resistance and encouraging root growth.

Hydra-Fuse contains 6% potassium derived from potassium acetate (KA) for superior foliar uptake. Hydra-Fuse's 50% Triazone N provides a tremendous color response with a predictable growth curve.

Formulated with low levels of phosphite. Frequent, low levels of phosphite have been proven to enhance rooting, even under stress conditions.

Benefits:

- Extremely low salt index
- No nitrates or chlorides
- Unlike nitrates, avoids "boom and busts cycle"
- Linear and predictable color response
- No excessive clippings
- Triazone urea
- Potassium acetate

Product Label Information

2.5 Gallons. Weight Per Gallon: 10.24 lbs.

Guaranteed Analysis: 18-0-6

Total Nitrogen (N).....18.0%
9.0% Urea Nitrogen
9.0% Other Water Soluble Nitrogen*
Soluble Potash (K_2O).....6.0%

Derived from: Urea, urea-triazone, potassium phosphite, potassium acetate

*Contains 9.0% slowly available nitrogen from urea triazone

Application Recommendation

Hydra-Fuse can be tank mixed with other fertilizers or turf chemicals after conducting a jar test for compatibility.

Foliar Cool Season Spray: 3.0 to 8.0 ounces per 1000 square feet
Foliar Warm Season Spray: 3.0 to 8.0 ounces per 1000 square feet
Ornamental: 1.0 to 4.0 quarts per 100 gallons of water and apply as a foliar spray or soil drench
Root Injection: 1.0 to 2.5 gallons per 100 gallons of water; once in spring and once in fall
