Hydra-Boost 3-10-15

Hydra-Boost is contains a proprietary blend of phosphite and phosphate. The proprietary combination of phosphite (PO_3) and phosphate (PO_4) work together to enhance plant stress resistance while increasing plant energy and metabolism.

Hydra-Boost is a catalyst for the plant's defense mechanism, resulting in a robust plant, vigorously ready to defend against stress. Hydra-Boost is proven to be a great tool during aerification recovery, grow-in, over-seeding, or declining turf areas. University research has proven the combination of PO_3 and PO_4 create more robust, stronger roots.

PO_3 provides stress resistance and root stimulation but no nutritional phosphorous and no ATP productions. PO_4 provides nutritional phosphorous and goes directly into ATP production.

HydraSmart

Benefits:

- Stress defense
- Enhances rooting
- Contains SAR elicitor compounds
- Enhances resistance to drought
- Increases plant metabolism and energy
- PO_3 (stress relief) and PO_4 (energy) are a powerful synergistic combination

Product Label Information

2.5 Gallons. Weight Per Gallon: 10.37 lbs.

Guaranteed Analysis: 3-10-15

Total Nitrogen (N).....	3.0%
3.0% Ammoniacal Nitrogen	
Available Phosphate (P ₂ O ₅).....	10.0%
Soluble Potash (K ₂ O).....	15.0%

Derived from: Ammonium polyphosphate, potassium phosphite

Application Recommendation

Hydra-Boost can be tank mixed with other fertilizers or turf chemicals after conducting a jar test for compatibility.

Foliar Cool Season Spray: 3.0 to 8.0 ounces per 1000 square feet

Foliar Warm Season Spray: 3.0 to 8.0 ounces per 1000 square feet

Ornamentals: Apply in a 0.5% V/V solution as a foliar spray
